## ABOUT ME

I am an ambitious frontend developer who has been working professionally for 2 years. I am an engineer by education with a degree in management and production engineering, but 4 years ago I decided to change my career path. I have been developing my skills towards the frontend. In 2021, I started working with Ework where I work on developing applications in JavaScript + React, among other technologies. On a daily basis I use: version control system - GIT and Jira software. I find myself well in a team. My goal, both professional and private, is to constantly improve and become a better frontend developer.

## WORK EXPERIENCE

**Frontend Developer**
Ework Group

August 2021 – present
Warsaw, Poland

My responsibilities:
- Developing and expanding application features.
- Creating reusable components according to design system.
- Working in a scrum team.
- Contacting and collaborating with project managers, backend/frontend developers and designers.
- Providing responsive views.
- Working with the GitLab platform – code review, application deployment.
- Estimating tasks.
- Bug fixing.

**Non - IT related works**
2013 – 2021
Constructor/ Designer working in CAD programs.
